## PREFACE.

---

The first complete Historical Sketch of the First Burying Place in Dorchester is herewith submitted by the Board of Trustees of the Cemetery Department of Boston. Under direction of the Trustees, the work of gathering and arranging the subject matter has been performed by Mr. Henry A. May, to whom our sincere thanks are due for the success achieved. Great care has been taken to obtain, from all sources, the history of this ground from its establishment, in 1634, to the present time. The epitaphs standing in the ground in 1872 were copied in that year by Mr. May, and verifications and additions have been brought up to May 1, 1905. In addition, many ancient epitaphs have been included, which have been obtained from authentic sources, but the stones have long since disappeared from the ground. Many of the names and dates of death recorded on stones are not found in the record of deaths in the town records of Dorchester, although recorded as residents of the town. Concerning burials in tombs, in but rare cases is found recorded in which tomb any person was buried. In view thereof, Mr. May has taken especial pains to search for facts in regard to interments in these tombs, and the largest amount of time and research has been expended to perfect the record of the tombs.

The final list of burials with this sketch has been compiled after an exhaustive examination of the records of the Town of Dorchester and the City of Boston. From information at hand they cannot be classified under the heading of being buried in a particular tomb, or having any gravestone standing, although recorded as buried in this ground.

**The Trustees will gratefully accept any information concerning burials in any of the old burying grounds of Boston, and request that such information be sent to the Cemetery Trustees, Room 76, City Hall, Boston, Mass.**

THE FIRST BURYING PLACE, DORCHESTER,  
MASS.

[DORCHESTER NORTH BURYING GROUND.]

The town voted November 3, 1633, to establish a burying place, and November 3, 1634, the land was laid out five rods square, and enclosed with a fence. By tradition the first burying place from 1630 to 1634 was located near the first meeting-house erected near the corner of what is now East Cottage and Pleasant streets; but there are no records to substantiate the claim. There are eighty-seven tombs in the ground, the oldest being in the southwest corner on the first land laid out for a burying place. Eight of these tombs have raised horizontal monuments above the tombs, and one, the Nathaniel Hatch tomb, has a perpendicular slate slab erected in memory of his father, Brigadier-General Estes Hatch. The oldest tombs in order of date are: Major-General Humphrey Atherton, 1661; John Moseley, 1661; Reverend Richard Mather, 1669; William Pole (Pool), 1674; Reverend Josiah Flint, 1680; Elder James Humfrey, 1686; Lieutenant-Governor William Stoughton, 1701; William Royall, 1724; Nathaniel Hatch, 1759; Reverend Jonathan Bowman, 1775.

Near these tombs are the oldest gravestones in the ground, many containing names and dates not found in the town records of Dorchester, and also in the record of epitaphs there are some thirty ancient gravestone records that are now gone. The oldest date on any gravestone is that of Barnard Capen and his wife Joan, bearing the date of 1638. This is not the original stone — that being now in the New England Historic Genealogical Society's Library, and is in two pieces, about half of the original stone. Barnard Capen came in the "Mary and John" in 1630. The next oldest gravestone is the horizontal monument to Abel, 1644, and Submite, 1648, said to have been children of Thomas Clarke of Boston and Dorchester.

The grave of Captain Hopestill Foster has a raised horizontal monument; came from London, 1635; Artillery Company; Ensign Dorchester train band; selectman 1646, and for thirty years after Deputy to the General Court; Justice or Commissioner of Trials. His wife's name was Mary. He died October 14, 1676, aged 56 years.

William Pole, or Pool, came to Dedham, 1630, then to Dorchester, where he was town clerk many years and schoolmaster; he died 25th February, 1674.

John Maudesley, or Moseley, came to Dorchester, 1630; freeman March 14, 1638-9; married, first, Elizabeth —, married, second, Cicily —; he died October 27, 1661.

In the oldest section of the ground are two groups of two and four graves, also a single grave covered with rough stones. Each stone is about five feet in length, and is laid on top of the graves. John Foster, mathematician and printer, son of Captain Hope-still Foster, graduated Harvard College 1667. Printed the first printing office in Boston 1675. Printed the first book 1676, the last book in 1680. He died September 9, 1681, aged 33 years.

He was commander-in-chief five years, beginning 1694. Was a benefactor of Harvard College, and Stoughton Hall was built at his expense in 1698. He was Chief Justice 1692-1701.

Town Meeting March 2<sup>d</sup> 1835

The Committee chosen to Ornament the North Burying ground beg leave to report that they have examined the walls and fences round the Burying place, and find a part of the same not sufficiently good to keep out Cattle.

They beg leave further to state that there is about four rods of old wall and fence, belonging to the town on the east side; bordering on Me/s<sup>n</sup> Lewis and Enoch Clapp's land, also about three rods of very poor wall on the east side; bordering on land owned by Mr. Ebenezer Seaver and also twenty lengths of very poor rail fence on the south side bordering on land owned by Mr. William Bird.

Your Committee would respectfully recommend that the Town make a good substantial Wall between Me/s<sup>n</sup> Clapp's and Seaver's land, and that the Slat fence on the South side be continued the whole length out on Mr. Bird's land.

Should the Town think proper to make these repairs and alterations, and which would make the Ground safe from the intrusion of Cattle. Your Committee are of opinion, that many more individuals would be encouraged to aid in ornamenting and clearing up this long neglected Burying place, and that the amount by subscription already Ninety dollars would in a short time be sufficient to warrant a commencement of the work.

All of which is respectfully submitted.

Committee Report North Burying Ground.

Dorchester, March 1<sup>st</sup> 1843

The Committee for Ornamenting the North Burying Ground presents a Report of their proceedings the past year.

They have spent the proceeds \$39, that was voted as follows viz, Repairing the old monuments and cut over the letters on the Rev. J. Flints, Master Poole's and Richard Mather's Tomb Stones, so they can be readable another Hundred years. Mr Moseley had the brick Monument of the Old Moseley Tomb built over, Messrs. Baker and others, has had General Athertons brick Monument rebuilt over, and intends having the letters on the Tomb stones cut over again, this will make a finish of all the ancient Tombs.

There has been added to the Burying Ground the past year two hand-some Tombs and one elegant Marvel Monument, a number of Fir Trees and some Shrubbery.

The Chairman of the above Committee will now surrender up his office and close with a few remarks.

They commenced Ornamenting the North Burying Ground in 1835, at that time the fences for the most part were very poor, the ground nearly covered with Brambles, and full of Snakes, little or no order had been observed in Burying the Dead. We have in 1843 in good order viz.

The fences mostly new and efficient, the Ground laid out in very good order, the Brambles and Snakes have disappeared, and the Burying ground is now covered with a great variety of handsome and beautiful Trees, some of them of rare kinds, also a quantity of very handsome Shrubbery and Flowers.

The Chairman will take this opportunity to give his warm Thanks to such of the Selectmen who have co-operated with him, in these kind and efficient aid, also to many other Friends that have lent their assistance to this good cause.

In behalf of the Committee

SAMUEL DOWSER Chairman.

Voted To accept the above report of the Ornamenting Committee.

March 14, 1853

The part of the Selectmen's printed report which refers to Burial Grounds.

There was appropriated the last year, the sum of One hundred and fifty dollars to improve the Burial Grounds. That sum appears insufficient for taking care of the trees and shrubbery and clearing the walks and carriage ways. We would therefore recommend that the sum of Two hundred dollars be appropriated the present year for this purpose, and we would also recommend that the Town take measures to enlarge the present lots or procure another lot for a Cemetery.

Voted That the section of the Selectmen's printed report referring to Burial Grounds be referred to the Selectmen with full power to act as they consider for the interest of the Town.

Voted That the Selectmen be instructed to make enquiry as to the expediency of purchasing in some suitable place land proper for a Cemetery for the use of the Town, sufficient for many generations yet to come, and report to the Town at a future meeting.

After the above record, according to the Town Records, the Selectmen yearly made appropriations for the care of the burying grounds in Dorchester. No particular reference was made in the appropriation orders to any ground, and no mention is made directly or otherwise of changes or improvements in the Dorchester North Ground.

COMMON COUNCIL, June 14, 1900.

Councilman Davenport of Ward 20 offered order:

Ordered, That the Board of Park Commissioners, through His Honor the Mayor, be requested to transfer to the Cemetery Department the unused land adjoining the Old North Burying Ground on Columbia road, Ward 20, and that the Cemetery Department construct a new stone wall and fence and properly grade and care for the vacant land.

Referred to the Mayor.

 A. Wife's tribute of affection

Here lies | all that is mortal | of | Mr. MERRILL BUTLER, | who tired of a vain world | died Nov. 11, 1821 | In the hope of a better |  
 Aged 37

Farewell vain world, I've had enough of thee,  
 And now am careless what thou saith of me,  
 Thy smiles I court not, nor thy frowns I fear,  
 My days are past, my head lies quiet here  
 A friend to all, a husband dear  
 An honest man lies buried here  
 All comforts fail us here below  
 For thine alone they are giv'n.  
 And though the body sleeps in death  
 The soul survives in Heaven  
 Benevolent to all below  
 Thankful for what God did bestow  
 And all his foes forgiven  
 Then measured out life's short span  
 And liv'd in love with God and man  
 His hopes were fix'd in Heaven  
 His work completed here on earth  
 His body moulder'd into dust  
 Almighty God who gives its birth  
 Has ta'en his soul to Heaven,  
 It is not wealth or monumental stone,  
 Can raise a mortal frame,  
 But faith and hope in God alone,  
 Can raise a Christian's name.

In the midst of Life we are in Death.  
She bent her steps at twilight's peaceful hour  
To worship God, and his rich grace implore;  
A higher boon than she sought was given,  
The gate she entered proved the gate of Heaven.  
Scarce had her willing feet the threshold prest  
Ere she was summoned to her final rest.
